

The background of the slide is a collage of six images, all tinted with a reddish-pink color. The images include: a close-up of a baby being kissed on the cheek by an older man; a man in a military-style uniform; a person in a white lab coat; a group of three people in white lab coats looking at a tablet; a group of three people in athletic wear cheering; and a close-up of a woman in a white lab coat smiling.

## HEAL Platform Discovery Page

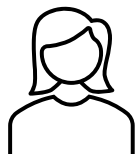

HEAL Investigator or Proxy

The HEAL Platform Study Discovery Page displays a table list of HEAL studies, with a count of studies and search tools to find specific studies at the top of the table

healdata.org

The screenshot shows the HEAL Data Platform interface. At the top, there's a navigation bar with "HEAL Documentation" and "Login". Below it, the "HEAL Data Platform" header is visible. On the right, there are icons for "Discovery", "Workspace", "Example Analysis", and "Profile". The main content area shows a search bar with the text "Search studies by keyword..." and a "Reset Selection" button. A red dashed box highlights the search bar and the "Study Filters" button. To the left of the search bar, the number "708" is displayed, indicating the total number of studies. Below the search bar, there's a table with columns: "PROJECT TITLE", "RESEARCH FOCUS AREA", "INVESTIGATOR(S)", "STUDY CHARACTERISTICS", and "DATA AVAILABILITY". The table lists two studies: "National Survey of Substance Abuse Treatment Services (N-SSATS), 2020" and "National Mental Health Services Survey (N-MHSS), 2010". Both studies are associated with "SAMHDA" and have a lock icon in the "DATA AVAILABILITY" column. A red arrow points from the "708" count to the search bar area.

Find your study entry using the free-text search bar >> search using the grant number, grant name, PI name, or other key words

healdata.org

The screenshot shows the HEAL Data Platform interface. At the top, there's a navigation bar with links for HEAL Documentation, Login, Discovery, Workspace, Example Analysis, and Profile. Below this, a summary statistics section shows 708 studies. A search bar is prominently displayed with the text "Search studies by keyword..." and examples: "Examples: pain, buprenorphine, intervention". A pink arrow points to this search bar. Below the search bar, there's a table of studies with columns: PROJECT TITLE, RESEARCH FOCUS AREA, INVESTIGATOR(S), STUDY CHARACTERISTICS, and DATA AVAILABILITY. The first study listed is "National Survey of Substance Abuse Treatment Services (N-SSATS), 2020" with the focus area "SAMHDA". The second study is "National Mental Health Services Survey (N-MHSS), 2010" with the focus area "SAMHDA".

PROJECT TITLE	RESEARCH FOCUS AREA	INVESTIGATOR(S)	STUDY CHARACTERISTICS	DATA AVAILABILITY
National Survey of Substance Abuse Treatment Services (N-SSATS), 2020	SAMHDA			
National Mental Health Services Survey (N-MHSS), 2010	SAMHDA

When you find your study entry, click anywhere in the study entry row -  
This will open a 'study card' with more information about your study

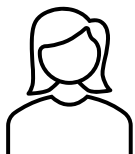

healdata.org

The screenshot shows the HEAL Data Platform interface. At the top, there's a navigation bar with 'HEAL Documentation' and 'Login'. Below that, the 'HEAL Data Platform' header is visible. The main content area displays '708 STUDIES' and a search bar with the placeholder 'Search studies by keyword...'. Below the search bar, there are buttons for 'Reset Selection' and 'Study Filters'. A table of studies is shown, with the first row highlighted by a red dashed box and a red arrow pointing to it. The table has columns for 'PROJECT TITLE', 'RESEARCH FOCUS AREA', 'INVESTIGATOR(S)', 'STUDY CHARACTERISTICS', and 'DATA AVAILABILITY'. The first study listed is 'National Survey of Substance Abuse Treatment Services (N-SSATS), 2000'.

PROJECT TITLE	RESEARCH FOCUS AREA	INVESTIGATOR(S)	STUDY CHARACTERISTICS	DATA AVAILABILITY
National Survey of Substance Abuse Treatment Services (N-SSATS), 2000			SAMHDA	
National Mental Health Services Survey (N-MHSS), 2010			SAMHDA

On the open study card, click the 'Permalink' icon –  
This will copy the permanent link assigned to your study by the HEAL  
Platform to your clipboard

healdata.org

The screenshot shows the HEAL Data Platform interface. At the top, it says "NIH HEAL INITIATIVE" and "HEAL Data Platform". Below this, it displays "708 STUDIES" and a search bar with the text "Search studies by keyword...". Below the search bar, there are two study cards. The first card is for the "National Survey of Substance Abuse Treatment Services (N-SSATS), 2020". The second card is for the "National Mental Health Services Survey (N-MHSS), 2010".

The detailed view of the "National Survey of Substance Abuse Treatment Services (N-SSATS), 2020" study is shown on the right. It includes a "Permalink" icon (a chain link) in the top right corner, which is highlighted by a red dashed box and a red arrow. The study details include:

- PROJECT NUMBER:** n-ssats-2020-ds0001
- INSTITUTION(S):** U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Center for Behavioral Health Statistics and Quality
- LOCATION:** United States and jurisdictions
- STUDY TYPE:** Survey Data
- STUDY NAME:** National Survey of Substance Abuse Treatment Services (N-SSATS), 2020
- STUDY URL:** <http://www.datafiles.samhsa.gov/dataset/national-survey-substance-abuse-treatment-services-2020-n-ssats-2020-ds0001>
- DATASET CATEGORY:** Survey Data
- STUDY CHARACTERISTICS:** SAMHDA
- SUMMARY:** N-SSATS is an annual survey that collects data from all public and private facilities providing substance use treatment in the 50 states, the District of Columbia, and the U.S. territories and jurisdictions. The objectives of N-SSATS are to: Collect multipurpose data that can be used to assist SAMHSA and state and local governments in assessing the nature and extent of services provided and in forecasting treatment resource requirements.

Update SAMHSA's Inventory of Behavioral Health Services (I-BHS).
